Lieutenant General E. Heinz, USAF

Director, IC Staff

P. O. Box 90828

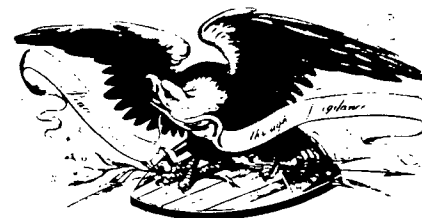

Washington, D. C. 20090-0828

Dear General Heinz;

I would like to draw your attention to a Symposium we are arranging in concert with USSPACECOM J-2 on the topic of "Intelligence and Space Operations," scheduled to be held at Colorado Springs 14 - 16 November 1988. The Symposium is co-sponsored by DIA. There will be at least eight hours of sessions at the SCI level on 15 and 16 November, with a focus on remote sensing, IMINT and multi-sensor / multi spectral data merging and associated technologies. To make this Symposium of greatest utility to DOD Intelligence, the Command, and the intelligence support structure, I am asking for your help.

Would it fit your schedule and inclination to address this Symposium? It would make a great impact on the Command and assure success for the Symposium if you would be able to give this favorable consideration.

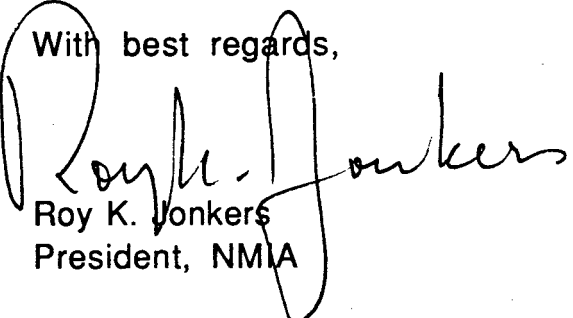

The subject would, of course, be of your selection, as you deem appropriate for the Command, the topic of the Symposium, and your Agency. I would suggest that an IMINT focus would be useful. Your participation would be the highlight of the Symposium, but I realize that competing demands on your time will influence your decision. If you cannot support us in person, would your Agency be able to support the Symposium with a presentation?

In addition we need to stimulate official awareness of the Symposium. I hope you will be able to provide exposure for this Symposium in official channels and encourage participation by the appropriate agencies and offices.

I close by expressing again, on behalf of NMIA, our deep appreciation for your continuing support for the Association and its objectives. Your membership on the NMIA Board of Advisors is a continuing source of strength and credibility for the Association. If you are able to give us favorable consideration in this instance, I will be delighted to work with your project officer to provide additional details as required.

With best regards,

Roy K. Jonkers  
President, NMIA

Tel: (703) 354-1565

# **SYMPOSIUM**

## **INTELLIGENCE AND SPACE OPERATIONS: MULTISPECTRAL CAPABILITIES, REQUIREMENTS, AND ISSUES.**

**SPONSORS:** USSPACECOM, THE DEFENSE INTELLIGENCE AGENCY, AND NMIA. Endorsed by the Office of the Deputy Assistant Secretary of Defense for Intelligence. Conducted by USSPACECOM and NMIA.

**WHERE:** Peterson AFB, Colorado

**WHEN:** 14-16 November 1988

**WHAT:** This Symposium builds on to the highly successful NMIA Symposium on Multi-Spectral Imagery conducted at White Oak, Md., in August 1987. The November 88 Symposium will be enhanced by a focus on USSPACECOM missions (Surveillance and Warning, BMD, Space Control, U&S Command Support) and Civil/Government satellite imaging technologies and applications. It will provide an opportunity for showing state-of-the-art multispectral processing, manipulation, fusion and display equipment and technology.

**WHO:** Currently planned or confirmed participation includes USSPACECOM, AFSPACECOM, and other U&S COMMANDS; DIA, NSA, SDC, SDIO, DMA, OMB; DOD/SERVICE Organizations (including TENCAP), ICS, NOAA, EOSAT (SPOT) and other industrial corporations and professional associations.

**SECURITY:** SCI clearances required for full program; SECRET can attend partial program (NOTE: some initial sessions will be UNCLASSIFIED).

**COST:** Registration (full session) \$100 for non-NMIA members; for NMIA members \$60; for active duty Government personnel \$30. Exhibit cost upon request, with discount for NMIA corporate members. A block of hotel rooms has been reserved. There will be free bus transportation and optional VIP lunch and evening functions on 14 November.

### **FOR INFORMATION, OFFERS OF SUPPORT, OR APPLICATIONS,**
